## Product Description

### • Impeccable High Speed

Ureach DOM duplicators are capable of copying at **3.9 GB/m** on all ports simultaneously without any speed degradation as number of targets increases.

### • Quick Copy Mode supports Windows and Linux File Formats

- Quick Copy mode only copies contained data in any NTFS, FAT 16/32/64 and Linux (ext2/ext3/ext4) and skips all empty sectors which greatly reduces duplication durations.
- The bit-for-bit duplication modes All Partitions Copy and Whole Media Copy support all known and unknown data formats.

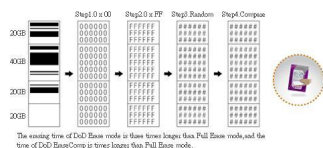

### • Additional Interfaces Supported via Optional Adaptors

Following interfaces are supported via optionally available adaptors: 7Pin SATA DOM, IDE DOM, Micro SATA, mSATA, M.2(NGFF), and CFast Card.

### • The DoD Erase Function

Complies with U.S. Department of Defense data wiping standards. When replacing or discarding HDDs containing sensitive information it is vitally important to make sure the data is securely erased and cannot be retrieved by any third parties.

### • Auto Power Control System

After completing any duplication task, the duplicator automatically powers down each port so users can immediately remove all connected drives without any concerns.

## More Information

- Standalone device, no PC required for operation.
- Copy Speed not affected by number of targets.
- High speed compare function guarantees accuracy of duplicated data.
- Instant power on and off. Easy to boot up without a wait time.
- User friendly interface with real time information LCD display.
- Easily upgradable Firmware.
- Experienced and friendly customer support.

## Specification

			
		Model	DOM9S8
		Targets	7
		Interface	SATA
		Display	Monochrome LCD
		Input	4 push buttons ( Forward, Back, Erase, Duplication)
		Compatible Interface	SATA DOM, SATA HDD
		Erase Modes	Quick erase, Full erase, Duplication
		Duplication Modes	Quick Copy (Systems & files) and Full Copy (Systems & files)
		Support Format	1.Systems & files: FAT16/32/64,NTFS, Linux(ext2, ext3, ext4) 2.Systems: FAT16/32/64,NTFS, Linux(ext2, ext3, ext4) 3.HDD: All formats
		Support Language	English, Japanese
		Power Supply	12V 5A adapter
Humidity	Operating		20%~80%
	Storage		5%~95%
Temperature	Operating		5?~45?
	Storage		-20?~85?
Safety			CE, FCC, ROHS
