Product Description

UB800 is the best portable 1 to 7 USB Flash Drive Copier. Its lightweight design and friendly interface allows easy operation for personal, office and shop applications. Just plug in your master USB flash drive in the source port, target cards in the target ports, and press "OK", it will execute copy.

The unit is an FPGA-based, standalone design which means no need PC support or any installation procedures. When the system is turned off, no data is left in it, so there is no risk of virus infection. While switching on and off, it quickly boots up and shuts down, saving time for operation.

Features

•Copy Anywhere

Amazing compact form factor allow user to go anywhere & copy anywhere!

Sensible Control

Simple yet smart easy control for all age group.

Superb Versatility
